GUJARAT TECHNOLOGICAL UNIVERSITY

Centre for Industrial Design (Open Design School)

DESIGN ENGINEERING

CONTINUOUS ASSESSMENT CARD

COLLEGE NAME: Government Engineering College, Gandhinagar COLLEGE CODE: 013	
SUBJECT NAME: Design Engineering	
SUBJECT CODE: 3130008	SEMESTER: 4th
BRANCH: Information Technology	ACADEMIC YEAR: 2023-24

TEAM NAME:	TEAM ID: 496673
PROJECT TITLE/DOMAIN:	

SR. NO.	TEAM MEMBER'S NAME	ENROLLMENT NO.
1	Prajapati Ayushi Bhaveshkumar	220130116051
2	Patel Bhumi Mukundbhai	220130116039
3	Rinki Balbirchand Devi	220130116078
4	Gracy Rakesh Rathod	210130116065

INTERNAL GUIDE NAME: Anamika mittal	
INTERNAL GUIDE SIGN:	

Head of Department College Seal

MONTHLY ASSESSMENT - I (Observation, Empathy and Define Phase)
(DATE :___/___/___)

1. Why students/team have taken above mentioned domain? (Please specify the reason)

   (Note: For more content or information, one may attach additional pages to this card.)

   Overall, the project offers a blend of technical complexity, creative potential, and real-world relevance that can be appealing to students in engineering, computer science, psychology, and related field.

2. How frequently student team has gone for observation on field, mention with date, place, time etc.? Which are the key observations that they have noticed?

   in the context of an emotion-based music player, key observations might include Emotion Recognition: Observing how effectively the music player detects and responds to user emotions.
   Music Selection Observing the effectiveness of the music player's algorithm in selecting appropriate music based on the user's emotions

3. A. How many interactions/interviews team members have done?

   the number of interactions or interviews conducted can vary significantly based on factors such as
   Project Stage: Early-stage projects typically involve more research and user engagement to gather insights.
   User Base: The size and diversity of the target user group can influence the number of interactions needed to gather comprehensive feedback.

   B. Who are the user and various stakeholders on domain? Describe their persona (Name, age, occupation/education, roles and responsibility etc.)

   End User Persona - Casual Listener
   Name: Alex
   Age: 19 Occupation/Education: College Student
   Roles and Responsibilities: Alex.enjoys discovering.new.music.but doesn't have much time to curate playlists. An emotion based music player would helo Alex easily find music that suits his current mood or activity

   C. List out the questions asked by team while having observation and interview?

   How do you typically use music in your daily life?
   Can you describe a recent situation where music influenced your mood?
   How do different genres or types of music affect your mood? Can you recall a time when a specific song or genre changed your emotional state?

4. What is something special/random/unusual (i.e. activity, environment, interaction, object or user) team have observed at the domain? Please elaborate the conditions with photographs if available.

Special thing about emotion based music player is this itern help us remove stress
and give us positive environment around us our mind experience about peace

5. Enlist any five major problems observed by your team in the respective domain. Mention any one for which you have empathize user the most and which might become your problem statement. Give reasons of selection of particular problem/issue based on empathy.

Here are five major problems our team observed with the emotion-based music player:

Inaccurate Emotion Detection: The player struggled with accurately detecting the user's emotion based on the inputs, such as facial expressions or voice tone.

Limited Music Variety: The player's music library was restricted, lacking diverse genres and languages to adequately match different emotional states.

User Interface Complexity: The interface was complex and unintuitive, making it challenging for users to navigate and customize their music preferences.

Inconsistent Performance: The player's performance varied widely depending on external factors

6. Define your "PROBLEM DEFINITION" for the project as per below format. Which might be refine till end of Ideation phase if you wish.

User/ Stakeholder → Needs a way to → **Problem/Needs** → Because → **Insights**

Music enthusiasts, individuals emotional support music, who use music as a means of self-expression.

Users struggle to curate playlists or find suitable music

To enhance mood regulation, productivity, people often turn to music that their current desired mood
